

DECOTIIS, FITZPATRICK & COLE, LLP

INFRASTRUCTURE

WITH THE PASSAGE OF THE OBAMA ADMINISTRATION'S ECONOMIC STIMULUS ACT, INTEREST IN AND SPENDING ON INFRASTRUCTURE PROJECTS HAS EXPLODED. The combination of decades of pent-up need and a large infusion of money has created enormous opportunities in the infrastructure industry - and equivalent legal challenges. The attorneys of DeCotiis can help.

Our lawyers have been advising clients on some of the biggest, most complex infrastructure projects in the Northeast. As an example, we are general counsel to the New Jersey Turnpike Authority, providing counsel on a billion-dollar road widening project. We have worked in virtually every other area of infrastructure, including water and sewer systems, power grids, railroads, telecommunication and data transmission, and more.

Our firm also possesses the unique advantage of an unparalleled Government Relations Practice Group. We have an intimate, firsthand understanding of the administrative processes and people who shape key infrastructure policy decisions. Whether you are involved in moving freight, moving water or moving electrons, the attorneys of DeCotiis can insure your business keeps moving as well.
