

DECOTIIS, FITZPATRICK & COLE, LLP

TRANSPORTATION

WHETHER WHAT'S MOVING IS FREIGHT OR PASSENGERS, WHETHER IT'S BY TRUCK, RAIL OR AIR, THE ATTORNEYS OF DECOTIIS ROUTINELY RENDER PRACTICAL, SOUND LEGAL ASSISTANCE TO CLIENTS WHOSE BUSINESS IS IN OR RELATED TO TRANSPORTATION. This includes representation before state and Federal administrative, investigatory and regulatory bodies, negotiation and documentation of a wide range of transactions, including acquisitions, real estate matters and ancillary issues, such as those involving real estate, labor and employment or tax.

Additionally, our attorneys are expert, zealous litigators should a dispute arise. While we always prefer settlement to court, we are extraordinarily capable at trying cases - and our opponents know this. This includes representation as the counsel designated by a client's insurer.

By definition, transportation is a wide-ranging industry, whose daily activities touch on an unusually broad range of legal matters and specialties. Here at DeCotiis, we can assemble and field a top-notch legal team to provide transportation clients of all types and sizes with the legal support they depend on.
